

MA Teaching and Researching Speaking and Listening (2021-2022)

N = 36 students

“Overall, I am satisfied with this learning experience (94.4% for excellent)”

- I like the structure of this module.
- Every thing was perfect. The module was carefully designed and structured. I learnt a lot of useful knowledge from the module.
- I have learnt the latest studies of this area, which is very useful for my further research.
- Kazuya is very responsible and supportive.
- Really helpful
- Kazuya is always full of passion and encourage students to do anything.
- The course arrangement perfectly meets the expectations listed in the module handbook in terms of the understanding of basic notions in L2 speech and listening research, the basic research methodology and the practical ability to carry out a small-scale empirical study and draw alignment with the existing literature. The wide range of required and suggested reading in line with the interactive online forum questions indeed helped me to better grasp the essential points and take-away points in each session.
- The content of this module is well designed. Thanks to Dr. Kazuya's clear presentation, I have learned a lot.
- Kazuya is super nice professor !
- Kazuya is one of the most patient and knowledgeable teachers I have ever met. All things are perfect.
- The face to face session is so helpful and useful. Combing with the help of each week's reading articles, the module is fantastic!
- The content is coherent and interesting, and the reading materials are comprehensive and in-depth.
- Really helpful
- Writing assignments seemed often demanding to some students, but it definitely helped even these students to find the differences between subjective writing and objective,

evidence-based academic writing through feedback in face-to-face sessions. These kind of instructions were really unique to this module and only a few lecturers provided what academic writing is during the modules.

- Kazuya is always full of passion and encourage students to do anything.
- Kazuya is really enthusiastic and engaged in the teaching of this module with frequent and regular preview and follow-up e-mails before and after each session. He also included many up-to-date articles to provide us with state-of-art research work in the fast-emerging field of L2 speech research. He also provided us with practicable and inspirational suggestions on our dissertation design and answered the common questions novice researchers might encounter.
- The lectures are fantastic! Saito really organized the lectures, discussions and in-class activities really well. The only thing that can be improved is that the class is too short for Saito to go through all of his fantastic lecture materials. It might be better if some parts of the lectures can be pre-recorded.
- The teacher always designed and organized interesting and meaningful activities. We are encouraged to express ourselves and discuss with other classmates.
- Kazuya is always full of passion and encourage students to do anything.
- The wide range of required and suggested reading in line with the interactive online forum questions indeed helped me to better grasp the essential points and take-away points in each session.
- Professor Kazuya is a genius at research and lecturing since he is so enthusiastic about his job, and his thoughts are easily understood after reading his high-quality papers and listening to his lectures. He is also very responsible, as he is eager to provide you with helpful ideas about not only this course, but also the dissertation! He is a very kind lecturer so that he can get along well with all students.
- A perfect module
- Kazuya is quite helpful and professional. It has been a pleasure learning with him this term!
- Thanks!
- Thank you so much for everything!!!
- Kazuya Saito is the best professor that I have ever met in UCL IoE. In-person seminars are really wonderful and inspiring !

- In all, Kazuya and Yeonwoo really provided a very engaging, interactive and fruitful module that really helped me to move forward in my SLA studies and provides me with basic abilities to carry out small-scale empirical studies in this field. Really satisfied with this module in general.
- Saito should be the module leader of the SLA module as well! He is fantastic at lecturing!
- Thank you for providing such a perfect module. I feel very proud of being a member of this module
