"Overall, I am satisfied with this learning experience (87.5% for excellent)"

- I really enjoyed the classroom environment and the rapport Dr. Kazuya was building with the students right from the first session.

- The teaching was perfect and I love the teacher. I especially love it when the latest researches were cited in the class. Also I love the research tools this module presented. I love technology and all the fancy computer-assisted teaching/learning and assessments!

- The module is very informative and inspiring. Kazuya is very passionate about researching and teaching, and he does have a considerably positive influence on the module and on all of us taking the module. Since Kazuya is super encouraging, everyone is more willing to share and contribute to the discussion. Undoubtedly, the module is wonderful, and I will definitely recommend it to students in the following years.

- The best course I have taken in UCL! The best teacher I have met! Thanks for giving us great instruction on the assignment and making every lecture intelligible and interesting. Thanks for letting us know how to find a topic of research and keeping the lecture updated!

- Professor Saito is really good at teaching .   The class atmosphere is good. All the criteria are communicated and shown clearly.

- Dr Kazuya is very enthusiastic and professional. It is my honor to be his student and listen to his lecture. Thanks a lot.

- Regarding understanding of fundamental concepts in L2 speech and listening research, fundamental research methodology, and the practical capacity to carry out a small-scale empirical study and draw alignment with the body of literature, the course arrangement perfectly satisfies the expectations listed in the module handbook. My understanding of the key ideas and takeaways from each session improved because to the extensive up to date list of necessary and recommended reading as well as interactive and sometimes even heated discussion during the sessions each week.

- I thoroughly enjoyed Dr Kazuya's teaching and was greatly inspired by his enthusiasm and knowledge!

- Thank you very much for a great class experience, Kazuya! You are a passionate and caring teacher who not only cares about students but also are willing to devote your time

to help students at any time. Much appreciated for your hard work and effort. Best wishes to you!

- This course has a clear aim and design and runs smoothly. It guides us to gain deeper insights into studies in second language acquisition. The module leader always gives detailed responses to and guidance on our questions about the course.

- Super supportive! Kazuya introduces us to many interesting journal articles, and we could read more according to our own preference. I also greatly appreciate the clear explanation, scaffolding, and demonstration about how to do the assignment of the module.

- This module is so popular that many students chose this one, but 50 students in one seminar is too much.

- Though many people taking this course, I don't feel that is a problem. All the resources are accessible.

- The module leader answered email quite efficiently. Required reading, suggested reading and featured reading were all easy to find due to the clear presentation in Moodle.

- Overall, I love it. Having this module might be the best decision I've made during the year.
